In [1]:
```python
print("Welcome to the python programming")
```
Welcome to the python programming

In [2]:
```python
print('Numpy','pandas')
```
Numpy pandas

In [3]:
```python
print("""It is very easy to use Python language""")
```
It is very easy to use Python language

In [4]:
```python
print("Numpy","Pandas",sep = "::")
```
Numpy::Pandas

In [5]:
```python
print("Multiplication of three numbers:",2*3*6)
```
Multiplication of three numbers: 36

In [6]:
```python
print("Division of two numbers:",8/4)
```
Division of two numbers: 2.0

In [7]:
```python
print("Data Analyst","Data Science", sep = "----")
```
Data Analyst----Data Science

In [8]:
```python
print(67+67)
```
134

In [11]:
```python
print("Mango,Banana,Grapes")
```
Mango,Banana,Grapes
